Management Team

Gregory Albertyn

CGEIT; CISA; CIPP

Director – Systems and Process Design

Greg has built a reputation as a trusted advisor in the risk management and business optimisation arena, assisting asset management, insurance and investment banking clients in Europe and North America with multi-disciplinary process and technology implementation programmes; optimising risk management and enhancing operational effectiveness strategies. Key expertise includes: operational restructuring; compliance optimisation; system and process design and integration

Felix Ramirez

MBA; CGEIT; CISA; AICPA

Director – Management Consulting and Audit

Felix is a widely experienced professional in management consulting and risk advisory services focused primarily on financial services organisations. He has demonstrable effectiveness in project management, human capital development and client relations, with strong operations and process analysis capabilities. Felix has assisted global clients in areas of financial and IT audit; IT risk management; IT Governance; compliance; and third party reporting. He assists Riebeeck Stevens' global banking, asset management and insurance clients in all service areas including: risk management strategy; IT governance structure; internal and external audit and third party assurance

Allan Stevens

BSc (Hons); APMP; MIoD

Director – Programme Management and Quality Assurance

Allan is a gifted programme manager who successfully leads multi-disciplinary teams to deliver business benefits via the use of technology. More than 27 years consultancy experience gained across a number of markets provide him with the broad business acumen to grasp new situations and to deliver successful outcomes. He is a determined individual with business and technical experience in all aspects of the delivery life cycle. A well respected collaborative worker, he possesses a high degree of tenacity and decisive edge to meet project and financial commitments, whilst motivating and developing staff.

Martin Stevens

BA (Hons); MSc; MAPM; MCMI; FRSA

Director – PM Best Practice and Business Continuity

Martin is a uniquely qualified project professional, strategist, champion and coach with a wealth of experience working within private and public sector organisations. With a background in the construction industry, Martin is able to design, manage and implement strategies to protect business operations and staff and develop effective business continuity plans. He possesses exemplary management, problem solving, planning, leadership and negotiating skills and is used to reporting at Board Level.
